Powerful enough for outdoor use. Clean enough for indoor.*

KBE5S-V Specifications

Part Number	EL 06001074
Fuel Input	111,000 BTU/hr
Fuel	Kerosene & Diesel
Fuel Usage	0.85 gal/hr
Tank Capacity	9 gallons
Power Source	120V, 60Hz
Power Consumption	100W
Control System	5 sec. Pre-purge 330 sec. Post-purge
Safety Device	Photocell flame monitor, 3A Fuse, Tip-over switch
Adjustable Disk Angle	Tilts upward 20°
Dimensions (H x W x D)	36.1 x 25.8 x 27.7 inches
Dry Weight	83.8 lbs

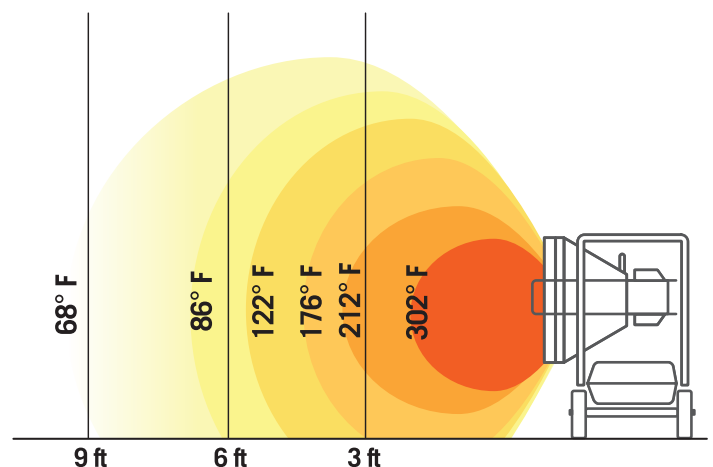

KBE5S-V's state-of-the-art combustion chamber enables virtually 100% fuel to energy conversion. This translates to clean, odorless, smokeless operation, and more importantly, fuel savings.

- ✓ Heat radiates evenly like heat from sunlight.
- ✓ Safety features include a tip over sensor and an overvoltage detector.
- ✓ Not affected by wind, unlike forced air heaters that suffer from heat loss to driven air.
- ✓ Clean combustion system produces no odor or smoke while running.**

Application Examples:

- Factory
- Workshop
- Construction Sites
- Drying Paint
- Drywall
- Asphalt/Concrete Preparation
- Outdoor Projects

KBE5S-V Temperature Distribution

*Always use in a well ventilated area. **Initial startup may release odor from products used in manufacturing.
